Intellicom

INTELLICOM CONNECT · HARDWARE FOR YOUR ERP

# Intellicom Connect Attendance

## Hours that reach payroll without retyping.

Hours are kept on paper or in spreadsheets, payroll is disputed, and nobody can prove who was on site. We connect phone check-in and attendance terminals to Intellicom People, so check-ins arrive as attendance, ready for leave and payroll.

MADE FOR

- Businesses with shift or site staff
- Employers paying by the hour
- Teams on several sites
- Anyone disputing time sheets

Intellicom IT (Pty) Ltd · pmalan@intellicom.org.za · 087 378 1162 · WhatsApp 068 609 2769 · intellicom.org.za

WHAT YOU CAN DO

# What is in the kit and how it works

01 Phone check-in with the person's location

02 Face or fingerprint terminals, or card and PIN readers

03 Connection of the terminals to Intellicom People

04 A privacy notice, consent wording and an operator agreement

05 Check-ins arrive in Intellicom People as attendance, ready for leave and payroll

06 We connect each terminal ourselves and test every model before we recommend it

INSIDE THE PRODUCT

# In detail

## What is included

- Phone check-in with the person's location
- Face or fingerprint terminals, or card and PIN readers
- Connection of the terminals to Intellicom People
- A privacy notice, consent wording and an operator agreement

## How it connects

- Check-ins arrive in Intellicom People as attendance, ready for leave and payroll
- We connect each terminal ourselves and test every model before we recommend it
- Biometric data is special personal information under POPIA, so we offer a card or PIN alternative and keep the biometric record on the device

## What we do

- We choose the right kit with you and supply it
- We install it and connect it to your system
- We test it with your own data and train your people
- We keep it running every month with Connect Care

## Good to know

- Learner attendance from devices is a custom job, and we do not recommend biometrics for children.

BETTER TOGETHER

## Works with your Intellicom systems

**Intellicom People**

**Intellicom Campus**

GETTING STARTED

## How it starts

01

### Free assessment

Thirty minutes. We look at your devices and your system and tell you plainly where we would start.

02

### Written plan and quote

What is ready now, what needs extra work, and the cost, in writing before you decide.

03

### Install, connect, test

We supply and set up the devices, connect them to the system and test with your own items and people.

04

### We stay on

Monthly care keeps it working through updates, firmware changes and the odd failed device.

THE CONNECT SERVICE

## We choose it, connect it and look after it

### Chosen for you

Hardware tested for the job and supplied through South African distributors, quoted once together with the set-up.

### Connected to your system

We connect each device to your Intellicom products, so a scan, a check-in or a reading lands where it belongs.

### Tested with your own data

We try it with your own items, people and documents before we call it done, and train your team.

### Looked after

Connect Care covers monitoring, updates and a help line, with the same helpdesk that looks after your system.

## Book a free assessment for Intellicom Connect Attendance

Thirty minutes: we look at your devices and tell you plainly where we would start.
