Intellicom ERP

One system for finance, stock, sales and production

Intellicom ERP brings accounting, buying, selling, stock, manufacturing, projects and assets into a single system, so your teams work from the same numbers. It replaces the patchwork of spreadsheets and disconnected packages that slows month-end and hides what is really happening in the business.

MADE FOR

- Trading and distribution companies
- Manufacturers with multi-level bills of materials
- Retailers running one or more points of sale
- Project-based and service businesses
- Groups with several subsidiaries or currencies

Intellicom IT (Pty) Ltd · pmalan@intellicom.org.za · 087 378 1162 · WhatsApp 068 609 2769 · intellicom.org.za

WHAT YOU CAN DO

Put it to work from day one

01 Run the general ledger, payables and receivables and produce financial statements from one system

02 Raise material requests and purchase orders through multi-level approvals and pay suppliers

03 Take sales from order to invoice to payment, using pricing rules and print formats

04 Track stock by warehouse, serial number and batch against a full stock ledger

05 Plan production with bills of materials, work orders and job cards, including subcontracting

06 Track project tasks, timesheets and expenses and see whether each project is profitable

INSIDE THE PRODUCT

Key features

Finance and accounting

- General ledger, accounts payable and accounts receivable
- Financial statements and reports
- Multi-subsidiary and multi-currency support
- Fixed asset management from purchase to disposal
- Cash flow management in one place

Buying, selling and stock

- Material requests, purchase orders and supplier payments
- Supplier scorecards
- Sales orders, sales invoices and pricing rules
- Item master, warehouses, serial and batch tracking
- Cloud-based point of sale with multi-store and shift management

Manufacturing, projects and quality

- Multi-level bills of materials and production planning
- Work orders, job cards and subcontracting
- Quality inspections, quality templates and non-conformance reporting
- Project and task tracking with timesheets and expense tracking
- Revenue recognition on projects

Customisation and control

- Customisable forms, reports, print formats and dashboards
- Multi-level approval workflows
- Roles and permissions down to field level
- Mobile-friendly access
- Document management with version control
- Open API for connecting other systems

BETTER TOGETHER

Works with your other Intellicom systems

Intellicom People
Adds HR and payroll that post straight into the same accounts.

Intellicom CRM
Extends the sales pipeline into quotations, invoicing and accounting.

Intellicom Service Desk
Keeps customer records in step between support tickets and the ERP.

Intellicom Analytics
Lets you query and chart your ERP data in dashboards.

GETTING STARTED

How we get you running

01

Discover

We learn how your business runs today and agree what the system must do.

02

Configure

We set it up around your processes, documents and approvals.

03

Move and train

We bring your existing data across and train the people who will use it.

04

Go live and grow

We switch you over, stay close in the first weeks and add more as you grow.

THE INTELLICOM SERVICE

We run it, you use it

Hosted for you
Runs on Intellicom-managed servers in South Africa, so your data stays in the country and there is nothing to install.

Set up around your business
We configure it to match how you already work and bring your existing data across.

Looked after
Backups, updates and monitoring are handled by our team, so your people can get on with their jobs.

Training and local support
We train your team and stay on call, with support from people in Cape Town who know your system.
