Intellicom Mail

Business email with administration in one place

Intellicom Mail is a web mailbox and administration console for running business email. Staff get a modern webmail client, and administrators manage domains, members and mail servers from a single dashboard, instead of juggling separate tools.

MADE FOR

- Organisations that want to run their own business email
- IT administrators managing several mail domains
- Teams that need shared address books and mailing lists
- Hosting providers managing mail for multiple clients

Intellicom IT (Pty) Ltd · pmalan@intellicom.org.za · 087 378 1162 · WhatsApp 068 609 2769 · intellicom.org.za

WHAT YOU CAN DO

Put it to work from day one

01 Read, send, reply to and forward email in a web mailbox

02 Search and filter mail and navigate by folder and thread

03 Manage contacts and address books

04 Set up identities and vacation auto-replies

05 Add domains and publish the DNS records they need

06 Invite members and manage mailing lists from an admin dashboard

INSIDE THE PRODUCT

Key features

Mailbox

- Folder and thread navigation
- Compose, reply and forward
- Search and filtering
- Keyboard shortcuts
- Installable as an app on desktop and phone

Contacts and settings

- Address books and contacts
- Account and identity settings
- Vacation auto-reply settings
- Mail import and export

Administration

- Domain management
- Member and access management
- Invite workflows
- Mailing list management
- Provisioning and DNS record management for mail servers
- Control of more than one mail server cluster from one place

Sign-up and integration

- Open sign-up limited to approved domains
- Invite-based sign-up
- Send and receive mail through an API
- Authentication checks for mailbox ownership and permission

BETTER TOGETHER

Works with your other Intellicom systems

> **Intellicom Platform**
> Runs on the same platform, so it can be extended and tailored to a client.

GETTING STARTED

How we get you running

01

Discover

We learn how your business runs today and agree what the system must do.

02

Configure

We set it up around your processes, documents and approvals.

03

Move and train

We bring your existing data across and train the people who will use it.

04

Go live and grow

We switch you over, stay close in the first weeks and add more as you grow.

THE INTELLICOM SERVICE

We run it, you use it

Hosted for you

Runs on Intellicom-managed servers in South Africa, so your data stays in the country and there is nothing to install.

Set up around your business

We configure it to match how you already work and bring your existing data across.

Looked after

Backups, updates and monitoring are handled by our team, so your people can get on with their jobs.

Training and local support

We train your team and stay on call, with support from people in Cape Town who know your system.
