Intellicom

INTELLICOM CONNECT · HARDWARE FOR YOUR ERP

Intellicom Connect Counter

Sell, print and reconcile in one place.

The till and the stock are out of step, receipts come from a different system, and card payments are matched by hand. We set up a counter that sells from the same stock as your ERP and records each payment against the invoice.

MADE FOR

- Shops and trade counters
- Restaurants and takeaways
- Businesses with more than one till
- Anyone reconciling card payments by hand

Intellicom IT (Pty) Ltd · pmalan@intellicom.org.za · 087 378 1162 · WhatsApp 068 609 2769 · intellicom.org.za

WHAT YOU CAN DO

What is in the kit and how it works

01 Receipt printer, cash drawer and scanner at the counter

02 QR and card payment options through your payment provider

03 Connection of selected payment services to the system

04 Set-up, testing and staff training

05 The counter sells from the same stock as the ERP, so a sale updates the stock

06 Receipts print through the browser or a print helper we set up

INSIDE THE PRODUCT

In detail

What is included

- Receipt printer, cash drawer and scanner at the counter
- QR and card payment options through your payment provider
- Connection of selected payment services to the system
- Set-up, testing and staff training

How it connects

- The counter sells from the same stock as the ERP, so a sale updates the stock
- Receipts print through the browser or a print helper we set up
- Payments are recorded against the invoice; card machines stay with your provider and we do not hold your money

What we do

- We choose the right kit with you and supply it
- We install it and connect it to your system
- We test it with your own data and train your people
- We keep it running every month with Connect Care

Good to know

- Whether a card machine can take the amount from the till automatically depends on what your payment provider offers. We tell you what is possible with yours.

BETTER TOGETHER

Works with your Intellicom systems

GETTING STARTED

How it starts

01

Free assessment

Thirty minutes. We look at your devices and your system and tell you plainly where we would start.

02

Written plan and quote

What is ready now, what needs extra work, and the cost, in writing before you decide.

03

Install, connect, test

We supply and set up the devices, connect them to the system and test with your own items and people.

04

We stay on

Monthly care keeps it working through updates, firmware changes and the odd failed device.

THE CONNECT SERVICE

We choose it, connect it and look after it

Chosen for you

Hardware tested for the job and supplied through South African distributors, quoted once together with the set-up.

Connected to your system

We connect each device to your Intellicom products, so a scan, a check-in or a reading lands where it belongs.

Tested with your own data

We try it with your own items, people and documents before we call it done, and train your team.

Looked after

Connect Care covers monitoring, updates and a help line, with the same helpdesk that looks after your system.
