INTELLICOM · BUSINESS SOFTWARE

Intellicom POS

A complete point of sale, from the till to the books

Intellicom POS is a complete point of sale system: till software on Intellicom ERP, the counter hardware, card payments through your own provider, and the set-up, training and support to run it. Every sale comes off the same stock and lands in the same books.

MADE FOR

- Shops and trade counters
- Restaurants and takeaways
- Businesses with more than one till or branch
- Businesses reconciling card payments by hand

Intellicom IT (Pty) Ltd · pmalan@intellicom.org.za · 087 378 1162 · WhatsApp 068 609 2769 · intellicom.org.za

WHAT YOU CAN DO

Put it to work from day one

01 Sell from the same items, prices and stock as the rest of the business

02 Take cash, card and split payments at the till

03 Print receipts and handle returns at the counter

04 Cash up each shift with the takings recorded in the books

05 See sales by till, branch and cashier the moment they happen

06 Open a new till or branch on the same system

INSIDE THE PRODUCT

Key features

Till software

- Touch-friendly selling screen
- Barcode scanning and item search
- Customer selection and loyalty points
- Discounts and pricing rules set centrally
- Returns against the original sale
- Shift opening and closing with cash-up

Counter hardware

- Till terminals and touchscreens
- Receipt printers and cash drawers
- Barcode scanners
- Supplied through South African distributors, set up and tested
- Equipment you already own used where suitable

Payments and back office

- Card and QR payments through your own payment provider
- Payments recorded against each sale
- Stock updated with every sale
- Sales and takings posted to the books
- We never hold or settle your money

BETTER TOGETHER

Works with your other Intellicom systems

Intellicom ERP
Items, prices and stock come from the ERP, and every sale, payment and cash-up lands back in its stock and accounts.

Intellicom Shop
The online store and the counter sell from the same stock, so stock levels stay in step.

GETTING STARTED

How we get you running

01

Free assessment
Thirty minutes. We look at your counter, your items and how you take payment, and tell you plainly where we would start.

02

A written plan and quote
The software, the hardware and the set-up, quoted together in writing before you decide.

03

Install, connect and test
We set up the tills, printers, drawers and scanners, load your items and prices, and test with your own stock.

04

Train and go live
Your counter staff learn the till on your own items before the first customer, and we stay close in the first weeks.

THE INTELLICOM SERVICE

We set it up, you sell

Hosted for you
The till software runs on Intellicom-managed servers in South Africa, so your sales data stays in the country.

Hardware chosen for you
Tested for the job, supplied through South African distributors and quoted once together with the set-up.

Your money stays yours
Card and QR payments go through your own provider. We record them against each sale and never hold the money.

Looked after
Updates, monitoring and a help line from people in Cape Town who know your system and your counter.
