INTELLICOM · BUSINESS SOFTWARE

Intellicom Platform

Custom business applications, built to fit you

Intellicom builds custom business applications for clients on a proven low-code platform. Instead of bending your process to off-the-shelf software, we model how your business actually works and deliver forms, workflows, reports and dashboards that fit it.

MADE FOR

- Businesses with processes standard software does not cover
- Organisations outgrowing spreadsheets
- Companies needing add-ons to Intellicom ERP
- Service providers needing separate environments per customer

Intellicom IT (Pty) Ltd · pmalan@intellicom.org.za · 087 378 1162 · WhatsApp 068 609 2769 · intellicom.org.za

WHAT YOU CAN DO

Put it to work from day one

01 Replace spreadsheets and paper forms with a proper business application

02 Define your own record types, forms and fields to match your process

03 Control who can see and do what through role-based permissions

04 Automate approvals and steps with workflows

05 Report on your data with reports, dashboards and Kanban boards

06 Extend the ERP system with your own screens and business rules

INSIDE THE PRODUCT

Key features

Build quickly

- Metadata-driven design where each record type defines its table, form and logic
- Form builder for designing forms
- Automatic REST API for every record type
- Custom client-side scripts
- Server-side event hooks written in Python

Ready-made business building blocks

- Accounting and lead management components
- Users, roles and permissions
- Workflows
- Reports and dashboards
- Real-time updates

Views and usability

- List, tree, Kanban and calendar views
- Configurable workspaces and list views
- Mobile-friendly forms, reports and dashboards
- Multi-company and multi-location support

Hosting and scale

- Several separate sites, each with its own database, from one installation
- Background job queues and caching
- Runs on Linux servers using Docker
- Horizontal and vertical scaling

BETTER TOGETHER

Works with your other Intellicom systems

Intellicom ERP
Intellicom ERP runs on the platform, so custom applications can extend it.

Intellicom Shop
Online store runs on the same platform and can be customised.

Intellicom Print Studio
Designs print layouts for documents in custom applications.

Intellicom Payments
Payment gateways can be added to custom applications.

GETTING STARTED

How we get you running

01
Discover
We learn how your business runs today and agree what the system must do.

02
Configure
We set it up around your processes, documents and approvals.

03
Move and train
We bring your existing data across and train the people who will use it.

04
Go live and grow
We switch you over, stay close in the first weeks and add more as you grow.

THE INTELLICOM SERVICE

We run it, you use it

Hosted for you
Runs on Intellicom-managed servers in South Africa, so your data stays in the country and there is nothing to install.

Set up around your business
We configure it to match how you already work and bring your existing data across.

Looked after
Backups, updates and monitoring are handled by our team, so your people can get on with their jobs.

Training and local support
We train your team and stay on call, with support from people in Cape Town who know your system.
