Intellicom

INTELLICOM CONNECT · HARDWARE FOR YOUR ERP

Intellicom Connect Print

Print what the system produces.

Invoices and statements print from the wrong place, and staff and learner cards are made by hand. We set up printers on the network and connect them to Intellicom Print Studio, so what the system produces is what comes out of the printer.

MADE FOR

- Schools and colleges
- Employers issuing staff cards
- Offices printing from the ERP
- Businesses labelling their own products

Intellicom IT (Pty) Ltd · pmalan@intellicom.org.za · 087 378 1162 · WhatsApp 068 609 2769 · intellicom.org.za

WHAT YOU CAN DO

What is in the kit and how it works

01 Office printers on the network

02 Label printers

03 ID card printers, cards and ribbons

04 Card and document layouts designed in Print Studio

05 Printing runs from the system through a print server, so people do not export and reprint

06 ID cards print from the employee or learner record using a layout designed once in Intellicom Print Studio

INSIDE THE PRODUCT

In detail

What is included

- Office printers on the network
- Label printers
- ID card printers, cards and ribbons
- Card and document layouts designed in Print Studio

How it connects

- Printing runs from the system through a print server, so people do not export and reprint
- ID cards print from the employee or learner record using a layout designed once in Intellicom Print Studio
- We set up the printers, drivers and queues

What we do

- We choose the right kit with you and supply it
- We install it and connect it to your system
- We test it with your own data and train your people
- We keep it running every month with Connect Care

Good to know

- There is no ready-made ID-card app for the ERP, so each card layout is built for you. Large-format and specialist printing: ask us.

BETTER TOGETHER

Works with your Intellicom systems

- **Intellicom Print Studio**
- **Intellicom People**
- **Intellicom Campus**
- **Intellicom Academy**
- **Intellicom Health**

GETTING STARTED

How it starts

01

Free assessment

Thirty minutes. We look at your devices and your system and tell you plainly where we would start.

02

Written plan and quote

What is ready now, what needs extra work, and the cost, in writing before you decide.

03

Install, connect, test

We supply and set up the devices, connect them to the system and test with your own items and people.

04

We stay on

Monthly care keeps it working through updates, firmware changes and the odd failed device.

THE CONNECT SERVICE

We choose it, connect it and look after it

Chosen for you

Hardware tested for the job and supplied through South African distributors, quoted once together with the set-up.

Connected to your system

We connect each device to your Intellicom products, so a scan, a check-in or a reading lands where it belongs.

Tested with your own data

We try it with your own items, people and documents before we call it done, and train your team.

Looked after

Connect Care covers monitoring, updates and a help line, with the same helpdesk that looks after your system.
