Intellicom Print Studio

Design professional documents without writing code

Intellicom Print Studio is a visual designer for the invoices, quotes, statements and other documents your business prints or emails. You lay out the page on screen, see the result as you work, and pull in data from the document and its linked records automatically.

MADE FOR

- Finance teams wanting branded invoices and statements
- Businesses needing a custom document layout
- Operations managers designing delivery notes and forms
- Administrators who want layout changes without a developer

GETTING STARTED

How we get you running

01

Discover

We learn how your business runs today and agree what the system must do.

02

Configure

We set it up around your processes, documents and approvals.

03

Move and train

We bring your existing data across and train the people who will use it.

04

Go live and grow

We switch you over, stay close in the first weeks and add more as you grow.

THE INTELLICOM SERVICE

We run it, you use it

Hosted for you
Runs on Intellicom-managed servers in South Africa, so your data stays in the country and there is nothing to install.

Set up around your business
We configure it to match how you already work and bring your existing data across.

Looked after
Backups, updates and monitoring are handled by our team, so your people can get on with their jobs.

Training and local support
We train your team and stay on call, with support from people in Cape Town who know your system.
