Intellicom Sites

Build and publish fast websites visually

Intellicom Sites is a visual website builder. You lay out pages on a canvas, optionally pull in records from your own database, and publish with one click as lightweight pages. It suits businesses that want to manage their own site without writing code.

MADE FOR

- Small businesses managing their own website
- Marketing teams building landing pages
- Organisations with content held in business data
- Agencies building sites for clients

Intellicom IT (Pty) Ltd · pmalan@intellicom.org.za · 087 378 1162 · WhatsApp 068 609 2769 · intellicom.org.za

WHAT YOU CAN DO

Put it to work from day one

01 Lay out pages on a visual canvas with desktop, tablet and mobile views

02 Describe a page to the built-in assistant and have it built

03 Generate one page per database record, such as blog posts

04 Reuse components across pages and update them in one place

05 Publish in one click and restore earlier versions

06 Restrict pages to signed-in visitors

INSIDE THE PRODUCT

Key features

Design

- Drag-and-drop canvas with properties panel
- Separate desktop, tablet and mobile designs
- Colour and font tokens with light and dark values
- Hover and focus styles without writing CSS
- Custom font uploads
- Figma frame import through a plugin

Content and data

- Reusable components with props
- Complete starter site templates
- Pages generated from database records using a short script
- Paste blocks between sites

Built-in assistant

- Builds pages from a plain description
- Reuses your existing colours, navbar and footer
- Asks for approval before risky changes such as new form storage
- Changes can be reverted

Publishing

- One-click publish as lean HTML and CSS
- Meta tags and automatic sitemap
- Automatic WebP image conversion
- Page views and referral analytics
- Version history, custom JavaScript and CSS

BETTER TOGETHER

Works with your other Intellicom systems

Intellicom Platform
Pages can be driven by records held in your Intellicom Platform database.

Intellicom Chat
Records from this product can be shared in chat channels, trigger alerts and be discussed where the team already talks.

GETTING STARTED

How we get you running

01

Discover

We learn how your business runs today and agree what the system must do.

02

Configure

We set it up around your processes, documents and approvals.

03

Move and train

We bring your existing data across and train the people who will use it.

04

Go live and grow

We switch you over, stay close in the first weeks and add more as you grow.

THE INTELLICOM SERVICE

We run it, you use it

Hosted for you
Runs on Intellicom-managed servers in South Africa, so your data stays in the country and there is nothing to install.

Set up around your business
We configure it to match how you already work and bring your existing data across.

Looked after
Backups, updates and monitoring are handled by our team, so your people can get on with their jobs.

Training and local support
We train your team and stay on call, with support from people in Cape Town who know your system.
