Intellicom Teamspace

Calm, organised discussion for remote teams

Intellicom Teamspace is a discussion platform for teams that work at different times and places. Conversations live in threads grouped by team and project, so decisions stay easy to find instead of disappearing in chat.

MADE FOR

- Remote and distributed teams
- Project-based businesses
- Agencies working with outside clients
- Teams tired of long chat streams

GETTING STARTED

How we get you running

01

Discover

We learn how your business runs today and agree what the system must do.

02

Configure

We set it up around your processes, documents and approvals.

03

Move and train

We bring your existing data across and train the people who will use it.

04

Go live and grow

We switch you over, stay close in the first weeks and add more as you grow.

THE INTELLICOM SERVICE

We run it, you use it

Hosted for you

Runs on Intellicom-managed servers in South Africa, so your data stays in the country and there is nothing to install.

Set up around your business

We configure it to match how you already work and bring your existing data across.

Looked after

Backups, updates and monitoring are handled by our team, so your people can get on with their jobs.

Training and local support

We train your team and stay on call, with support from people in Cape Town who know your system.
